Arizona Health Care Cost Containment System

Guide to 2008 Summer Internships

AHCCCS Summer Internship Program

purpose

The purpose of the AHCCCS internship program is to offer opportunities that enrich the learning experience of the Masters' level student.

The student will:

- Experience a fast-paced health care environment.
- Undertake meaningful projects with supervision and support from executives and senior management staff in preparation for a professional career.
- Expand their knowledge and understanding of the health care industry and related public policy issues.
- Receive real-world experience through project work and networking with experienced professionals.

projects

Students interested in 2008 internships should possess interest in one of these areas:

- Health Policy and Research
- Administrative Legal Services
- Health Program Analysis and Budgeting
- Community Outreach and Education
- Program Marketing and Communication

Examples of projects previously completed by interns include:

- *Writing summaries of bills and legislation*
- *Research of virtual office/telecommuting models and cost analysis research*
- *Analysis of premium assistance programs in other states*
- *Creating a methodology for analyzing health service gaps*
- *Identification and evaluation of opportunities for health network expansion*

application process

Go to the AHCCCS web site: www.azahcccs.gov

Click on *Summer Intern Program*

- Download application
- Locate Agency strategic plan online
- Complete application

Email completed application to Lorie Mayer in the Office of the Director at Lorie.Mayer@azahcccs.gov by March 7, 2008.

Please direct questions to her at 602-417-4420.

Screening of applicants will be done and the Agency may request a personal interview to match individual interests with Agency projects.
